

We Make Life Better

Kindasa Water Services, a privately held company in Jeddah provides affordable potable water to their residential and industrial customers in the Kingdom of Saudi Arabia— and they do it in adherence with World Health Organization and Saudi Arabian Standard Organization guidelines - 24 hours a day, 7 days a week.

By investing in state-of-the-art desalination technology, Kindasa remains at the front of the Middle Eastern desalination wave. They chose membrane technology leader Nitto Denko/Hydranautics to provide membranes for their 26,850 m³/d seawater reverse osmosis expansion to their existing 14,000 m³/d plant. Kindasa uses a combination of Hydranautics products to create one of the largest Integrated Membrane Solution[®] installations in the world - using over 700 HYDRAcap[®] ultrafiltration UF modules installed in Hydranautics manufactured UF racks for pretreatment, as well as more than 2,600 SWC3 and 680 ESPA2 reverse osmosis elements.

Nitto Denko/Hydranautics & Kindasa Water Services together providing clean, affordable water.

**Innovations. Flexible Solutions.
Real Relationships. Global Responsibility.
Unwavering Integrity.**
